Dear Sir:

Please put this letter in the persons  
hands there in the Pentagon, whom is always  
interested in data on UFO's.

I saw 5 UFO's on the evening of Nov.  
- 1959 at 5:45 p.m. in a clear sky here in  
Phoenix. My husband a local school teacher  
also saw them plus my three small  
children ages 5 1/2 - 4 - 16 months. I could  
only be a member of The Ground Observer  
Club because all I do is study the sky &  
look for different airplanes and other  
phenomena that may appear. I have to be  
with my children outside so I keep from getting  
bored I have seen probably everything that  
has ever flown over the city for the past  
years since I've moved here. I've heard  
myself praying to see a flying saucer  
since I first heard of them in 1947.

DATE November 30 - 1959

I believe the occupants of the saucers must have been psychic because I said to my husband - I wish they would do something to prove they are other than airplanes, and the ones fire drawn and now to bubble up and down like hobby horses and tilted also.

I think I said I wish they would get left as something and they did at that very moment - They changed with a hot orange white color - they must have been far apart then because I saw a distinct circle of light from the 4 of them also that reminded white orange and the top that felt red. They came back to us and faded off.

None of us were afraid or much  
impressed - we believe they are extra-  
terrestrial and the only thing that concerns  
us is if they are friendly or not and  
what their purposes are. My husband was  
in the Counter Intelligence Corps in  
Germany and he has a very high I.Q. and  
he believes the saucers operate on magnetic  
principles. The saucers made just a  
square turn off to the west. They really  
seemed low to us, also seemed to be  
going pretty slow for them.

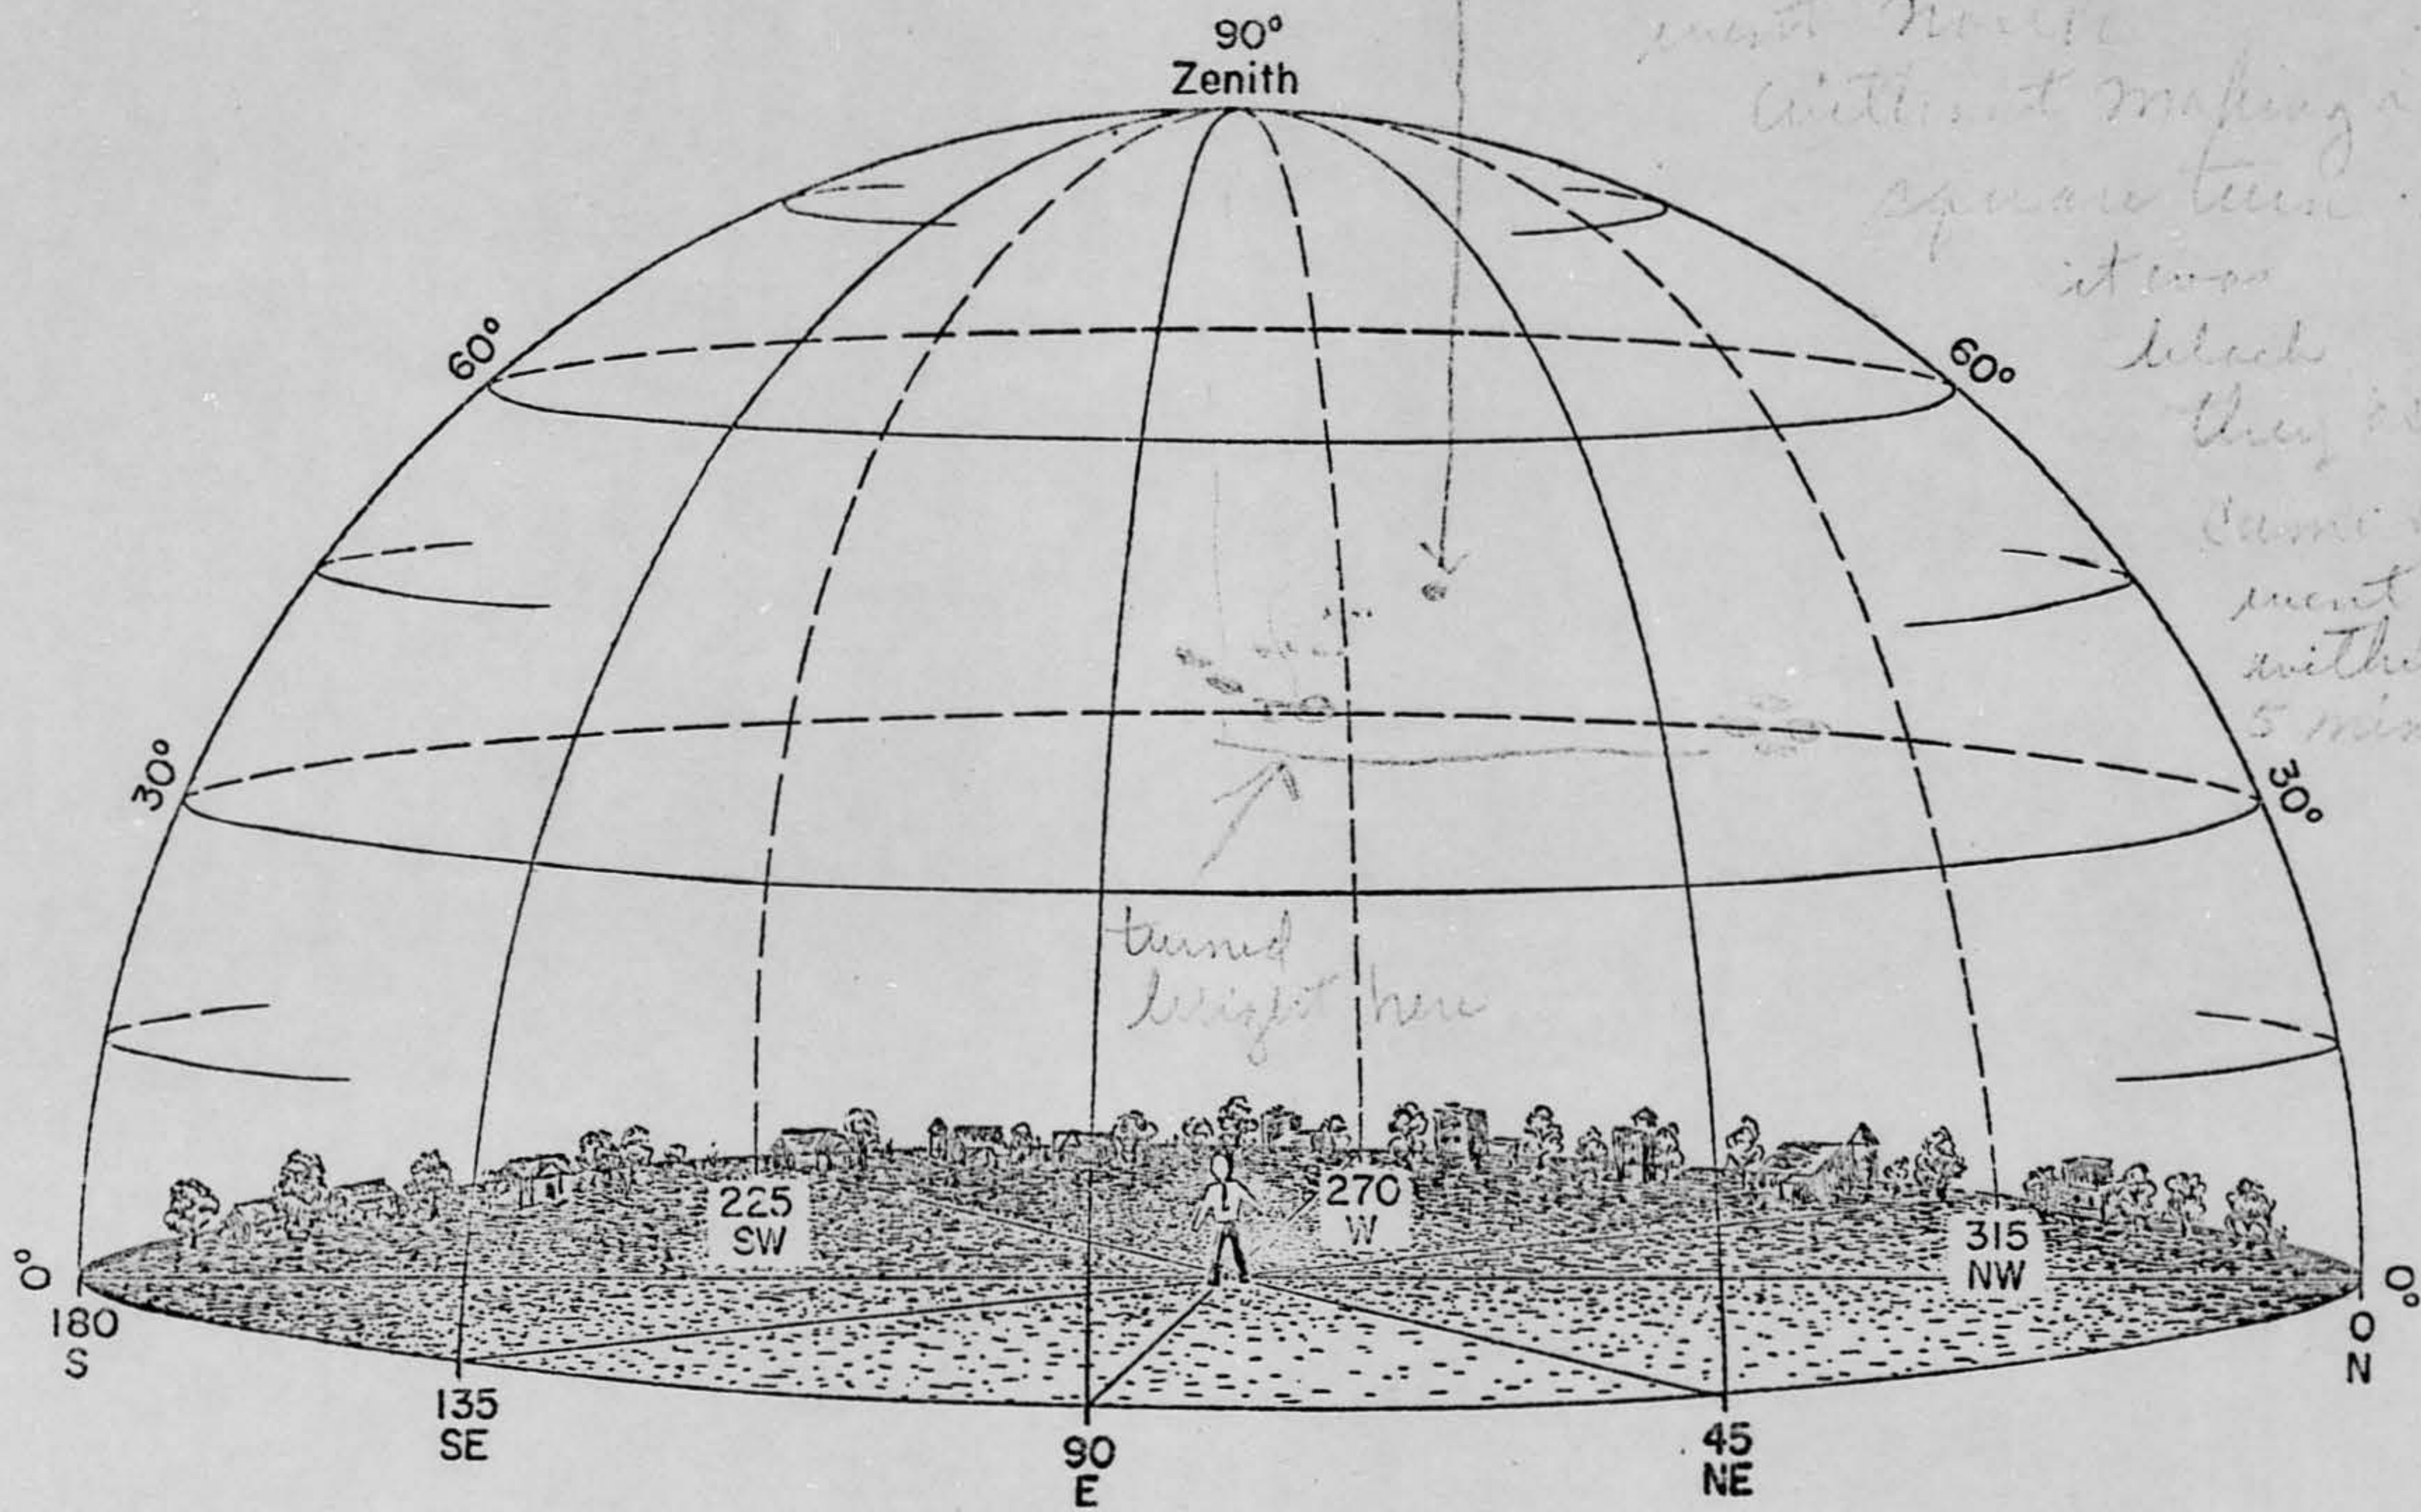

I hope this report can be of some  
use in Research.

Thanking you I remain

Yours Sincerely

Dear Sir:

Last November 29 - 1959, I sent in  
a Report on 4 'Flying Saucers' seen here  
in Phoenix, Arizona. I also enclosed a  
drawing of the 470's. Could you please  
let me know if my letter was received.  
If it is at all possible could you send  
me the colored sketch of the saucers  
back? I want to prove to my  
sister-in-law, my letter was received.  
My address is Mrs ~~Ann~~ ~~Ann~~

2. ~~1000~~ ~~1000~~ ~~1000~~ Avenue,  
Phoenix, Arizona.

I've read quite a lot about the  
Flying Saucers and I've seen 6 altogether  
now. My children's reaction to them is  
the same as seeing a new airplane —  
If we could just determine what their  
visits mean to this country it would  
make them much more friendly  
appearing to me — I'm sure they  
mean well. I believe some are good  
and some are bad business. I  
know I contacted them by telepathy  
because when I wished that they  
would wave or light up — they  
would do so. I know the sounds  
coming but after we saw them —  
(my husband, children) 2 men in  
suits came to the door asking about

3. a non-existent address here in

Phoenix. They smiled and laughed the whole time they were at the door. Their complexions were very rosy colored. They looked like healthy men more than I can say about any other men I've seen in a good 3 years including my husband. These men had complexions like children - that's all I noticed strange about them. What do you think could have been the explanation? This may sound crazy too but I heard radio call letters under a woman's "hair dryer in the Beauty Shop one day also music. If I hear anything interesting about the mysterious ones I'll contact the right people. I think if they should be

4. Antile that the Government  
should attempt to reflect the sun's  
light on these with mirrors and get  
them that way or else - use a  
radio frequency on them.

Will you people have more in-  
teresting things to attend to so I'll  
sign off for now. Please try to

locate my old letter and let me  
know if my report was valid.

Thanking you I remain -

1. On 29 February 1960, Mrs. [REDACTED] wrote to ATIC requesting the return of a colored sketch of an unidentified flying object. Mrs. [REDACTED] sent the sketch to the Air Force as a part of a report made by her on 10 November 1959.

2. The objects sighted by Mrs. [REDACTED] in November 59 were probably birds, but the information provided ATIC was not sufficient to make a conclusive evaluation.

I'm not convinced out of the  
Telling Stars (Poor souls dying and going to heaven)  
I'd seen in Texas earlier were really flying swans.  
Back to my report on the night mentioned  
earlier, we (hus. & children) were looking across  
the front yard and up at the sky. It was  
twilight. I saw 4 black objects, round  
but tilted to show the underside more to us.  
We never seen such black things. I thought  
they were ducks and I had reason to think so.  
We lived in Texas all my life before I married  
and moved to Oliveria, and that Rio, which is in  
Texas is directly in line with the migratory  
lanes of geese & ducks that fly south for the  
winter. I saw the same manner &  
flight patterns of the birds practically  
every winter when they flew over. I thought

I've lived in Texas all my life before I married  
and moved to Illinois, and that line, which is in

lanes of geese & ducks that fly south for the  
winter. I saw the same movements  
flight patterns of the birds practically  
every winter when they flew over. I thought  
the saucers were ducks in formation. They  
were in line like this  They were about  
about 400 feet. They came from the north.  
They weren't pushing as airplanes do. They  
were just moving so smoothly. I said to  
my husband "Look at those -" "What are  
they?" - He said "Why ~~that's~~ - They're flying

3. Saucers. I saw they go behind a palm tree which obscured my view for a minute but I said to myself "I wish they would do something to prove these saucers - it's hard to believe even if you are looking at them - Some of the lower ones went up & down like bobby horses a couple of times. They they all squared off in a turn, the center 2 that labbed turned last - I saw a swath of air cut where they went through - there were 2 trails for the 4 objects. Then again I wished to myself that they would shine for us as they were pitch black. The first 2 turned out an exploding flash of hot orange, white light & stayed that way for the T. & +

was the size of a pin head (black).  
It stayed that size - made a square  
turn. (I knew it was square because  
it was coming right at us then it  
went squarely on the straight line).  
These things didn't make a sound either.  
The last one disappeared north after  
going pretty slow since amplified  
and saw it coming from the West. I  
wouldn't mind investigating one of the  
saucers if we could be sure they were

them and not panic but I think
